Express bonds | Description

This Memory Express Bond refers to the share of Daimler AG (underlying). It offers an interest payment which depends on the performance of the underlying. The bond has a term of five years, if there is no early redemption. The redemption at maturity depends on the closing price of the underlying on the final valuation date.

Interest payments: Interest of 5.50 % on the nominal amount is paid on the annual interest payment dates (18/04), if the closing price of the underlying at the respective valuation date is at or above the coupon barrier (65.00 % of the closing price of the underlying on 17/04/2019). Otherwise, there is no interest payment. If the interest payment has not been triggered at one or several interest payment dates but has been triggered at a later interest payment date, the interest payments of the earlier periods are paid retrospectively (memory function).

Redemption: The bond will be redeemed on 18/04/2024 if there is no automatic early redemption. There is an automatic early redemption, if the closing price of the underlying is at or above the current redemption barrier on one of the valuation dates (09/04/2020, 12/04/2021, 08/04/2022, 11/04/2023). The respective current redemption barrier is in the 1st year 95.00 % of the closing price of the underlying on 17/04/2019, 90.00 % in the 2nd year, 85.00 % in the 3rd year and 80.00 % in the 4th year. In this case investors receive the respective early redemption amount and the respective interest amount due at this time.

If there is no early redemption the bond will be redeemed at maturity as follows:

- If the closing price of Daimler AG on the final valuation date (11/04/2024) is at or above the final redemption barrier, the bond is redeemed at 100,00 % of the nominal amount (plus the relevant interest amount);
- If the closing price of Daimler AG on the final valuation date is below the final redemption barrier, investors receive shares of the underlying. Due to the lower strike price of 65.00 % (= 35.00 % airbag) of the closing price of the underlying on 17/04/2019 a predetermined higher number of shares (defined by the ratio) of the underlying is delivered. Fractions of shares are settled in cash. Furthermore, there is no interest payment at maturity.
