Guaranteed products | Description

The ERSTE Megatrends Garant III 19-27 refers to the Solactive Megatrends RISE Index as underlying, has a fixed term and will be redeemed on 29/04/2027 (maturity). During the term there is no interest payment and investors do not receive any other proceeds.

The redemption at maturity depends on the performance of the underlying. Redemption is at least 100.00% of the nominal amount (minimum redemption amount). Participation on the positive performance of the underlying is uncapped. Therefore, redemption equals the performance of the underlying multiplied by the nominal amount, at least 100.00 % of the nominal amount at maturity.

The Solactive Megatrends RISE Index consists of 10 European companies each which are selected of 4 defined megatrends (therefore 40 companies). These megatrends are:

- Robotics, digitization and automation
- Infrastructure
- Silver Age (aging population)
- Environment (the ecological footprint)

These 10 stocks per megatrend are equally weighted within the index and rebalanced on a quarterly basis.

The underlying is a price index. This means dividend payments of companies in the index are not included in the calculation.

Details on the index can be found at the website of the index provider Solactive AG:

Secondary market

During the term it is possible to sell the product during the trading hours at the exchanges, where the product is listed.
