Guaranteed products | Description

The ERSTE Global Select Garant X 19-29 refers to the STOXX® Global Select Dividend 100 Index as underlying, has a fixed term of ten years and will be redeemed on 29/11/2029 (maturity). During the term there is no interest payment and investors do not receive any other proceeds.

The redemption at maturity depends on the performance of the underlying. Redemption is at least 100.00 % of the nominal amount (minimum redemption amount). There is a 100.00 % participation on the uncapped positive performance of the underlying.

The redemption amount is determined as follows:

1. If the price of the underlying on the valuation date is above the strike, the redemption price is 100.00 % plus the positive performance of the underlying multiplied by the nominal amount.
2. If the price of the underlying on the valuation date is below the strike, then the redemption amount equals 100.00 % of the nominal amount (minimum redemption amount).

The STOXX® Global Select Dividend 100 Index contains the stocks with the highest dividend yield from the Americas, Europe and Asia/Pacific regions. The underlying is a price index. This means, dividend payments of the companies in the index are not included in the calculation of the index. Further information on the index can be found at <https://www.stoxx.com/index-details?symbol=sdgp>

Secondary market

During the term it is possible to sell the product during the trading hours at the exchanges, where the product is listed.
