 Advantages	 Risks you should know
<ul style="list-style-type: none"> Investors receive an interesting bonus payment at the end of term even when prices go sideways or are falling, as long as the price of the underlying has not fallen to or below the barrier ("sideways yield"). The barrier offers partial protection to falling prices ("risk buffer"). 	<ul style="list-style-type: none"> The return may be lower than expected. If the price of the underlying falls to or below the barrier, the bonus payment is reduced or not paid at all. There is no guarantee and no return of invested capital. Investors bear the risk of the Erste Group Bank AG not being able to meet its obligations in the event of insolvency or liquidation order (bail-in requirement) of invested capital.

Bonus certificates | Description

Upon issue the bonus level is set above the initial price of the underlying

Max. profit	23.56
Max. profit in %	95.23%
Max. profit in % p.a.	340,282,000,000,000,128,482,280,606,280,420,004,460.00%
First trading day	2019/12/18
Last trading day	2020/03/18
Quanto	no
Currency	EUR
Repayment value	25.800 EUR

below the initial price. If the specific certificate comes with a cap (respective amount), it is set at or above the bonus level.

The redemption at maturity depends on the development of the underlying following possibilities:

If the underlying does not fall to or below the barrier during the term, the least the bonus level payment (considering the ratio). If the price of the underlying is higher than the bonus level at maturity, the higher amount is paid. The maximum amount determines the maximum payout. In case the barrier was hit during the term, the redemption depends on the performance of the underlying at maturity, but is limited to the bonus amount (if applicable). Potential losses are possible.

Secondary market

During the term it is possible to sell the product during the trading hours on the secondary market where the product is listed.
