Reverse convertibles | Description

This protect reverse convertible bond refers to the share of Wienerberger AG (underlying). It has a fixed term (maturity date: 01/02/2022) and a risk buffer (= barrier; "protect"). At maturity investors receive an interest payment of 6.90 % p.a. based on the nominal amount regardless of the performance of the underlying.

The repayment of the nominal amount upon maturity depends on the performance of the underlying.

1. If the underlying is above the barrier (80.00 % of the strike price) throughout the observation period, 29/01/2021 (excl.) to 25/01/2022 (incl.), investors receive 100.00 % of the nominal amount.
2. If the underlying is at or below the barrier at least once during the observation period, also intraday, then the barrier is touched or broken. If the closing price of the underlying is at or above the strike price on 25/01/2022 (valuation date), investors still receive 100.00 % of the nominal amount.
3. If the barrier is touched or broken and the closing price of the underlying is below the strike price on the valuation date, investors receive shares of the underlying according to the ratio (nominal amount / strike price). Fractions of shares are settled in cash.

The issuer and its affiliates may - without being obliged to - act as market maker for the underlying.
