Low price (52 weeks)	88.40

Performance since inception. Performances under 12 month have only little informative value because of the short maturity. Information about previous performance does not guarantee future performance.

Source: Erste Group Bank AG

+ Advantages

- Investors receive a fixed coupon of 13.00 % p.a.
- Additional risk buffer in case of a falling share price of AT&S Austria Technologie & Systemtechnik AG.
- Redemption at 100.00 % of nominal amount if the barrier is not broken on the valuation date.
- Erste Group Bank AG will set quotes for this product during the term, nevertheless, is not obliged to it.

! Risks you should be aware of

- Earnings are capped at 13.00 % p.a. even if the underlying has a better performance.
- By an allocation of shares, the value of the shares is less than the face value of the bond, therefore a significant loss can occur. A total loss of invested capital is possible. Delivered shares cause additional costs (e.g. security deposit fees, transaction fees upon sale).
- During the term fluctuations are possible and premature sale may lead to capital loss. Limitation

of trading of this bond is possible.

- Investors bear the issuer risk of Erste Group Bank AG, i.e. the risk of changes of the creditworthiness and the risk of insolvency.
- This protect pro reverse convertible bond is not covered by any deposit guarantee scheme. Investors are exposed to the risk that Erste Group Bank AG may not be able to meet its obligations arising from the bond in the event of insolvency or over-indebtedness or from an official order (bail-in regime). A total loss of invested capital is possible.

Reverse convertibles | Description

This protect pro reverse convertible bond refers to the share of AT&S Austria Technologie & Systemtechnik AG (underlying). It has a fixed term (maturity date: 01/12/2023) and a risk buffer (= barrier; "protect pro"). At maturity investors receive an interest payment of 13.00 % p.a. based on the nominal amount regardless of the performance of the underlying.

The repayment of the nominal amount upon maturity depends on the performance of the underlying.

1. The underlying is at or above the barrier (80.00 % of the strike price) on the valuation date (24/11/2023). In this case investors receive the nominal amount.
2. The underlying is below the barrier on the valuation date. Investors then receive shares of AT&S Austria Technologie & Systemtechnik AG according to the ratio (nominal amount / strike price). Fractions of shares are settled in cash.

The issuer and its affiliates may - without being obliged to - act as market maker for the underlying.

Secondary market

During the term it is possible to sell the product during the trading hours at the exchanges, where the product is listed.
