the underlying is at or above the final redemption barrier on the last valuation date.

- Risk buffer (final redemption barrier of 65.00 %) compared to a direct investment in the Infineon Technologies AG share. A fall of the share price below the barrier during the term has no influence on the redemption at the end of the 5th year, relevant is only the closing price on the last valuation date.
- Erste Group Bank AG will set quotes during the term without being legally obliged to do so.

even if the underlying has a better performance.

- Investors bear the risk of the issuer Erste Group Bank AG, i.e. the risk of changes of the creditworthiness and the risk of insolvency.
- This memory express bond is not covered by any deposit guarantee scheme. Investors are exposed to the risk that Erste Group Bank AG may not be able to meet its obligations arising from the bond in the event of insolvency or over-indebtedness or from an official order (bail-in regime). A total loss of invested capital is possible.

#### Express bonds | Description

This memory express bond refers to the share of Infineon Technologies AG (underlying). It offers an interest payment which depends on the performance of the underlying. The bond has a term of five years, if there is no early redemption. The redemption at maturity depends on the closing price of the underlying on the last valuation date.

**Interest payments:** Interest of 10.50 % on the nominal amount is paid on the annual interest payment dates (03/03), if the closing price of the underlying at the respective valuation date is at or above the coupon barrier (65.00 % of the strike price). Otherwise, there is no interest payment. If the interest payment has not been triggered at one or several interest payment dates but has been triggered at a later interest payment date, the interest payments of the earlier periods are paid retrospectively (memory function).

**Redemption:** The bond will be redeemed on 03/03/2028 if there is no automatic early redemption. There is an automatic early redemption, if the closing price of the underlying is at or above the redemption barrier (100.00 % of the strike price) on one of the valuation dates (26/02/2024, 24/02/2025, 24/02/2026, 24/02/2027). In this case investors receive the respective early redemption amount and the respective interest amount due at this time.

If there is no early redemption the bond will be redeemed at maturity as follows:

1. If the closing price of Infineon Technologies AG share on the last valuation date (25/02/2028) is at or above the final redemption barrier, the bond is redeemed at 100.00 % of the nominal amount (plus the relevant interest amount).
2. If the closing price of Infineon Technologies AG share on the last valuation date is below the final redemption barrier, investors receive shares (defined by the ratio of nominal amount / strike price) of the underlying delivered. Fractions of shares are settled in cash. Furthermore, there is no interest payment at maturity.

#### Secondary market

During the term it is possible to sell the product during the trading hours at the exchanges, where the product is listed.
