Company Profile

Applied Materials, Inc. engages in the provision of materials engineering solutions used to produce new chip and advanced display. It operates through the following segments: Semiconductor Systems, Applied Global Services, and Display and Adjacent Markets. The Semiconductor Systems segment includes semiconductor capital equipment for deposition, etch, ion implantation, rapid thermal processing, chemical mechanical planarization, metrology and inspection, and wafer level packaging. The Applied Global Services segment provides solutions to optimize equipment, performance, and productivity. The Display and Adjacent Markets segment offers products for manufacturing liquid crystal displays, organic light-emitting diodes; coating systems and display technologies for television; personal computers, tablets, smart phones, and consumer-oriented devices. The company was founded on November 10, 1967 and is headquartered in Santa Clara, CA.
